Prepared without accessing the site · November 2026

RISK LEVEL

# RED

**EXTREMELY DANGEROUS. This site must NOT be accessed. This report was prepared without accessing the site.**

| GREEN · Low | YELLOW · Moderate | RED · Extreme ▼ |
|---|---|---|

## 1. Important Notice

- **This site must not be accessed.** No tool, including Tor Browser and a VPN, makes access safe or lawful.
- **The site was not accessed** in preparing this report. There was no visit, registration, purchase, contact or download. The information was obtained **by external means**, from the description provided to the repository's maintainer.
- The information **has not been independently verified**: the site's existence, current state (online or offline) and operators have not been confirmed. As a precaution, the red level is kept even if the site is offline or replaced by a copy.
- The site's address is **not recorded** in this document or in the repository.

## 2. Site Profile

| Field | Information |
|---|---|
| Site name | DCdutchconnectionUK |
| Type of activity | Drug trafficking between the United Kingdom and the Netherlands |
| Repository category | Dark Web · Illicit marketplace |
| Risk level | RED · Extreme risk |
| .onion address | NOT RECORDED |
| Method of research | External information, without accessing the site |
| Site status | Not verified |
| Report date | 1 November 2026 |

## 3. What the Site Does

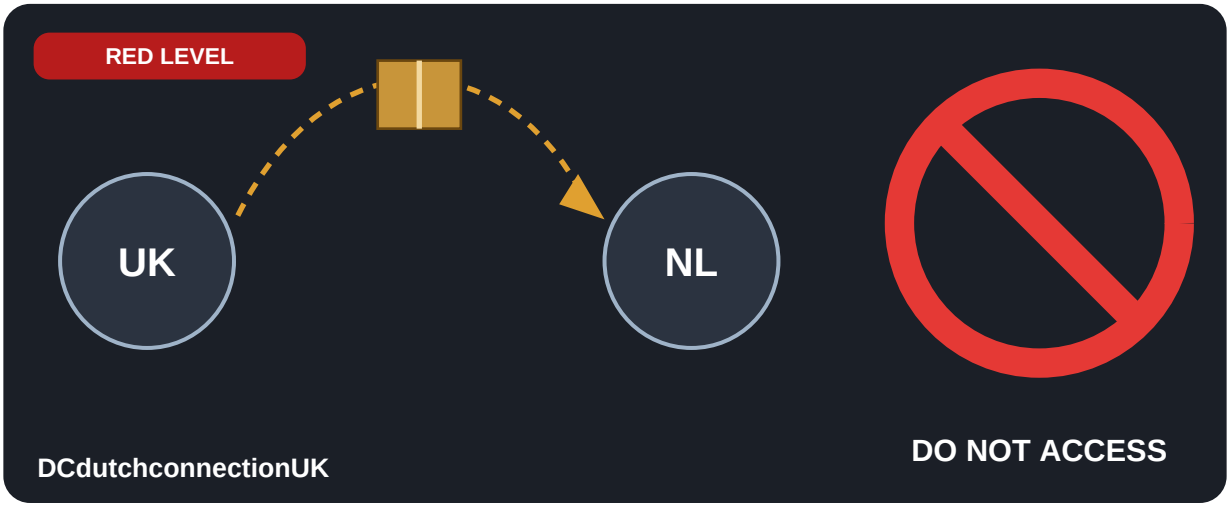
**DCdutchconnectionUK** was described to the repository's maintainer as a site for **drug trafficking between the United Kingdom and the Netherlands**: a platform linked to the supply and purchase of illicit substances along an international route involving those two countries.

The name suggests a "Dutch connection" aimed at the British market. This report gives no details of operators, volumes or methods, because the site was not accessed and that information has not been verified.

### Nature of the activity

- **Criminal activity**: the illegal trade and transport of drugs.
- **Cross-border nature**: it involves two countries and therefore the authorities of both, with police cooperation between them.
- **Anonymous environment**: the dark web makes sellers and buyers harder to identify, but does not prevent investigations.

## 4. Illustrative Image



*Conceptual illustration created for this report. It is not a screenshot, because the site was not accessed.*

## 5. Why It Is Red Level

The red level is applied when there is at least one indicator of extreme danger. In this case:

- **Illegal trade**: selling controlled substances is prohibited in both countries (for example under the *Misuse of Drugs Act 1971* in the United Kingdom and the *Opiumwet* in the Netherlands).
- **International trafficking**: usually treated with heavier penalties than use or possession.
- **Dutch tolerance is not permission**: the tolerance of certain conduct in regulated venues in the Netherlands does not make online trade or international shipping lawful.
- **Scams and fraud**: illegal marketplaces are frequent targets for scams, such as advance payment with no delivery.
- **Traps and surveillance**: the authorities monitor platforms of this kind, and buyers can become the subject of investigations.

If in doubt between yellow and red, red is adopted.

## 6. Risks for Those Who Access or Interact

- Criminal liability for trafficking, importing or possession, in one or more countries.
- Seizure of parcels and the opening of an investigation.
- Loss of money to scams; cryptocurrency payments are hard to recover.
- Data theft, malware and extortion.
- Harm to health and risk of overdose from substances of unknown origin and composition.
- Exposure of identity and delivery address.

## 7. How to Protect Yourself

- **Do not access** it, do not look up the address and do not look for the site.
- Do not click links or accept invitations received through messages, forums or social networks, and do not pass them on.
- Do not record or share the address; record only the risk level.
- Never provide personal data, passwords or payments to anyone offering illegal products or services.
- Keep your system, browser and antivirus up to date and use two-step verification.
- Know the law where you are.
- If someone is being pressured, threatened or blackmailed because of a site like this, contact the police. If there are problems with drug use, seek a health service.

## 8. If You Accessed It by Mistake

1. Close the tab or window **immediately** and quit Tor Browser. Do not interact with anything.
2. Do not download or open files. If something was downloaded, do not run it, disconnect the device from the network and run an antivirus scan.
3. If you gave a password or personal data, change your passwords from a clean device and turn on two-step verification.
4. If you made a payment, contact your bank or the platform used and log the incident.
5. If you are threatened or blackmailed, do not reply or pay; keep the evidence and contact the police.

## 9. Legal Notice

This report is informative and does not encourage or guide access to any site. Illegal activity remains illegal on the Tor network, and the authorities have investigative methods that do not depend on breaking the network's anonymity. The descriptions are summaries based on external information, with no evidential value, and this document does not attribute offences to any specific individual.
