420Prime

Risk report · Red level · DO NOT ACCESS

Informative report · British English
Prepared without accessing the site · November 2026

RISK LEVEL

RED

EXTREMELY DANGEROUS. This site must NOT be accessed. This report was prepared without accessing the site.

GREEN · Low	YELLOW · Moderate	RED · Extreme ▼

1. Important Notice

- **This site must not be accessed.** No tool, including Tor Browser and a VPN, makes access safe or lawful.
- **The site was not accessed** in preparing this report. There was no visit, registration, purchase, contact or download. The information was obtained **by external means**, from the description provided to the repository's maintainer.
- The information **has not been independently verified**: the site's existence, current state (online or offline) and operators have not been confirmed. As a precaution, the red level is kept even if the site is offline or replaced by a copy.
- The site's address is **not recorded** in this document or in the repository.

2. Site Profile

Field	Information
Site name	420Prime
Type of activity	Sale of cannabis
Repository category	Dark Web · Illicit marketplace
Risk level	RED · Extreme risk
.onion address	NOT RECORDED
Method of research	External information, without accessing the site
Site status	Not verified
Report date	1 November 2026

3. What the Site Does

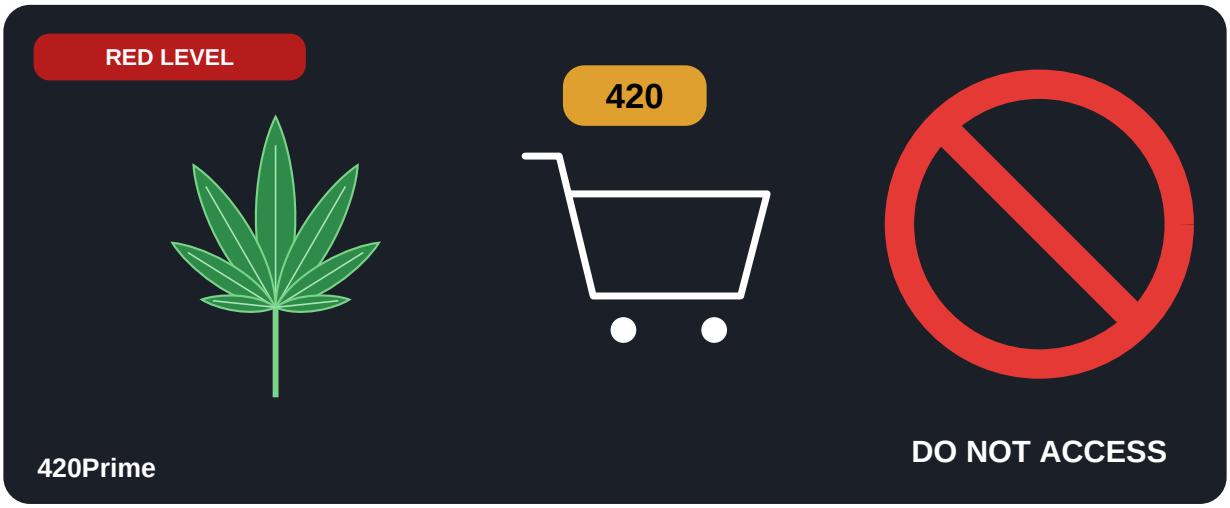
420Prime was described as a site for the **sale of cannabis**, offered through the dark web. The number 420 is a well-known code in cannabis culture and forms part of the site's name.

In some places there is a lawful, regulated cannabis trade. This is not such a case: the site operates outside any licensing. The report does not detail products or operators, because the site was not accessed.

Nature of the activity

- **Illegal sale** outside any regulated system.
- **Anonymous online shop**, with no identification of who is responsible.
- **No quality control**, labelling or consumer information.

4. Illustrative Image



Conceptual illustration created for this report. It is not a screenshot, because the site was not accessed.

5. Why It Is Red Level

The red level is applied when there is at least one indicator of extreme danger. In this case:

- **Trade without a licence**: the existence of regulated markets in some countries does not make anonymous sale through the dark web lawful.
- **No consumer protection**: no testing, no labelling, no guarantee of origin and no refunds.
- **Scams and clones**: shop names are copied to deceive buyers.
- **Payments that are hard to reverse**, usually made in cryptocurrency.
- **Traps and surveillance**: shipments and platforms are the subject of investigation.

If in doubt between yellow and red, red is adopted.

6. Risks for Those Who Access or Interact

- Criminal liability for purchase, possession or importing.
- Loss of money with no possibility of a refund.
- Untested products, possibly contaminated or adulterated.
- Exposure of personal data and address.

- Malware, phishing and extortion.
- Health risks, especially for young people.

7. How to Protect Yourself

- **Do not access** it, do not look up the address and do not look for the site.
- Do not click links or accept invitations received through messages, forums or social networks, and do not pass them on.
- Do not record or share the address; record only the risk level.
- Never provide personal data, passwords or payments to anyone offering illegal products or services.
- Keep your system, browser and antivirus up to date and use two-step verification.
- Know the law where you are.
- If someone is being pressured, threatened or blackmailed because of a site like this, contact the police. If there are problems with drug use, seek a health service.

8. If You Accessed It by Mistake

1. Close the tab or window **immediately** and quit Tor Browser. Do not interact with anything.
2. Do not download or open files. If something was downloaded, do not run it, disconnect the device from the network and run an antivirus scan.
3. If you gave a password or personal data, change your passwords from a clean device and turn on two-step verification.
4. If you made a payment, contact your bank or the platform used and log the incident.
5. If you are threatened or blackmailed, do not reply or pay; keep the evidence and contact the police.

9. Legal Notice

This report is informative and does not encourage or guide access to any site. Illegal activity remains illegal on the Tor network, and the authorities have investigative methods that do not depend on breaking the network's anonymity. The descriptions are summaries based on external information, with no evidential value, and this document does not attribute offences to any specific individual.
