### Hello

Welcome to the "Shadow Wiki"!

This wiki focuses on (where applicable):

1. Nanonymity (Privacy + Security + Anonymity), Spyware, Surveillance, Censorship, Interoperability and Decentralization.
    - Hardware
    - Software
    - Politics
3. Religion
4. Not just what is mainstream, but also that which is obscure or esoteric.
5. Where things are made, how renewable they are, and their quality.
6. This is the orange pill.

### Mental Health Disclaimer

Shadow Wiki touches upon sensitive topics that may not be appropiate for some people who have certain traits. If you are paranoic and/or have suicidal tendencies, your conclusions when reading Shadow Wiki's contents may cause you more harm.

If you choose to read Shadow Wiki, try not to withdraw from society. Go outside, touch grass, drink water, do stretches, etc...

### Contact and Contribute

There is currently no official XMPP MUC for ShadowWiki. The Spyware MUC currently does not support darknet, and the old diggdeeper room
